Personal Profile

Logic, programming, and the Internet are my passions, not simply a career choice. Please visit justiceconder.com to learn more about my work.

Work Experience

Trufield Enterprises, Inc.
January 2011 - June 2011

Web development and digital publishing. My responsibilities included web design and development, event promotion, and technology consulting.

Sherwin Williams
July 2011 - March 2013

Front end web development. I maintained several Sherwin Williams web assets, functioned as a liaison between my project manager and web engineering, and lead the development of a multi-language minisite project.

Truth For Life
March 2013 - January 2014

Front end web development. Maintained the client side resources of the main site, oversaw usability tests, and consulted on issues related to responsive design, mobile development, and Agile development methods.

Key Skills

OSX	JavaScript	Python
